Dated: 11/12/2020

## ADVERTISEMENT

Application are invited for filling the following post under the project entitled "Hybrid 2D MoS<sub>2</sub> Nanosheets for Photocatalytic Water Purification" Sponsored by Science and Engineering Research Board (SERB), Ministry of Science and Technology, Govt. of India. The project duration is one (one) years.

## Name and No. of Post

1. Junior Research fellow (JRF) (01)

## **MINIMUM QUALIFICATION AND REMUNERATIONS:**

M.Tech with GATE qualification in Nanoscience and Nanotechnology, Biotechnology, Optoelectronics, Electronics and Communications & Material Science with 55% marks or equivalent CGPA for General Category (50 % marks in case of SC/ST/PH)

Or

MSc. With NET/GATE qualification in Electronics, Physics, Chemistry, Nanoscience, Nanotechnology with 60% marks or equivalent CGPA for General Category

Remuneration: As per Govt. rules.

## **Desirable Qualifications:**

Preference will be given to those candidates having six (06) months research experience on Nanomaterials: Synthesis and Applications.

Candidate(s) possessing the requisite qualifications may send their applications through email (<a href="mkhanuja@jmi.ac.in">mkhanuja@jmi.ac.in</a>) to the Principal Investigator by, 24<sup>th</sup> December, 2020 giving complete bio-data (with e-mail address and mobile no.)

Mante

Dr. Manika Khanuja, Principal Investigator

Centre for Nanoscience and Nanotechnology, JMI.
