TOWN PLANNING Paper II

Time : 150 Minutes

Max. Marks : 150

Series

#### INSTRUCTIONS

- 1. Please check the Test Booklet and ensure that it contains all the questions. If you find any defect in the Test Booklet or Answer Sheet, please get it replaced immediately.
- 2. The Test Booklet contains 150 questions. Each question carries one mark.
- 3. The Test Booklet is printed in four (4) Series, viz. <u>A B C D</u>. The Series, <u>A</u> or <u>B</u> or <u>C</u> or <u>D</u> is printed on the right-hand corner of the cover page of the Test Booklet. Mark your Test Booklet Series <u>A</u> or <u>B</u> or <u>C</u> or <u>D</u> in Part C on side 1 of the Answer Sheet by darkening the appropriate circle with Blue/Black Ball point pen.

Example to fill up the Booklet Series If your Test Booklet Series is **A**, please fill as shown below :-

If you have not marked the Test Booklet Series at Part C of side 1 of the Answer Sheet or marked in a way that it leads to discrepancy in determining the exact Test Booklet Series, then, in all such cases, your Answer Sheet will be invalidated without any further notice. No correspondence will be entertained in the matter.

4. Each question is followed by 4 answer choices. Of these, you have to select one correct answer and mark it on the Answer Sheet by darkening the appropriate circle for the question. If more than one circle is darkened, the answer will not be valued at all. Use Blue/Black Ball point pen to make heavy black marks to fill the circle completely. Make **no** other stray marks.

e.g. : If the answer for Question No. 1 is Answer choice (2), it should be marked as follows :

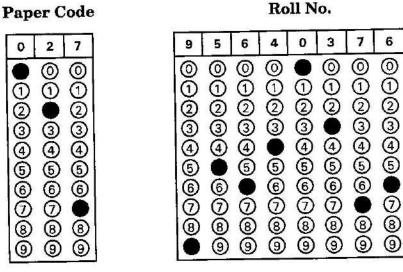

B

1

5. Mark Paper Code and Roll No. as given in the Hall Ticket with Blue/Black Ball point pen by darkening appropriate circles in Part A of side 1 of the Answer Sheet. Incorrect/not encoding will lead to *invalidation* of your Answer Sheet.

Example : If the Paper Code is 027, and Roll No. is 95640376 fill as shown below :

- 6. Please get the signature of the Invigilator affixed in the space provided in the Answer Sheet. An Answer Sheet without the signature of the Invigilator is liable for *invalidation*.
- 7. The candidate should **not** do rough work or write any irrelevant matter in the Answer Sheet. Doing so will lead to *invalidation*.
- 8. Do not mark answer choices on the Test Booklet. Violation of this will be viewed seriously.
- 9. Before leaving the examination hall, the candidate should hand over the original OMR Answer Sheet (top sheet) to the Invigilator and carry the bottom sheet (duplicate) for his/her record, failing which disciplinary action will be taken.
- 10. Use of whitener is prohibited. If used, the answer sheet is liable for invalidation.

PT/	(3	)		В
	Birth and death rates are usually expressed in	6.	In a l	arge city the road area is
ĺ	(1) Number per 10 persons		(1)	20-25% of the total area
	(2) Number per 10000 persons		(2)	5% of the total area
	(3) Number per 1000 persons		(3)	10% of the total area
	(4) Number per 100 persons		(4)	35% of the total area
2.	In India the average household size is approximately	7.		ary school going age children in India titute
	(1) 4.5		(1)	10-11% of the population
	(2) 4		(2)	2.75% of the population
	(3) 6.5		(3)	25% of the population
	(4) 5·5		(4)	15 – 16% of the population
	(4) 5.0		<i>5</i> 1	
	the smallest open	8.	The	fundamentals of planning operations are
3.	For planning purposes, the smallest open recreational space is		(1)	House and work
	(1) The sand pit		(2)	Folk and work
	(2) The tot-lot		(3)	Place, folk and work
	(3) The park		(4)	Traffic, folk and commercial areas
	(4) The playground			12
		9.	The	Town survey operations should be limited
4.	The average requirements of open space in		to ti	
	urban areas is		(1)	Administrative boundary of the local authority
	(1) 4 acres per 1000 population		(0)	Include peripheral areas
	(2) $0.5$ acre per 1000 population		(2)	Include the region
	(3) 4 acres per 100 population		(3)	Include all settlements in the adjacent
	(4) 15.5 acres per 1000 population		(4)	districts
5.	For the purpose of understanding desire line for movement, planners conduct	5 10.		e standard for provision of in-patient beds hospitals in urban areas is
	(1) Origin Destination survey		(1)	1 – 2 beds per 1000 population
	(2) Traffic volume survey at junctions		(2)	50 beds per 1000 population
	(3) Traffic composition survey		(3)	4 – 5 beds per 1000 population
	(4) Topographic survey		(4)	20 – 25 beds per 1000 population

21.	city ( (1) (2) (3) (4)	n planning to shift population away from centre, the new residential area should be Compact Widely distributed over a large area Moved to a very far away city Accommodated in another district teriorating building is defined as A building with very few minor defects A building requiring fair amount of repairs	26. 27.	proje (1) (2) (3) (4) For displ (1)	Always temporary Always permanent May be temporary or permanent Is not required in most cases counselling people who have been aced it is good to involve Non-governmental organization
	( <b>3</b> ) (4)	Building which has a number of serious defects in walls, columns, etc. A building which is old and looks unattractive		(2) (3) (4)	Government agencies State urban local bodies Private individuals
23.	<ol> <li>(1)</li> <li>(2)</li> <li>(3)</li> <li>(4)</li> </ol>	lighted" area in a city refers to One which does not have good lighting One which has been neglected and not maintained properly An area which has been well maintained Which has been provided with good lighting levels a acquired under redevelopment may be Only to private sector companies for development Only to public agencies for development To private or public bodies as per the provisions of the detailed redevelopment plan Only for the provision of parks and playgrounds	28.	that (1) (2) (3) (4) One	modern day planners are of the opinion Urban renewal is a waste of limited resources Urban renewal is an important part of town planning process Urban renewal projects should be limited to redevelopment Only monumental buildings should be preserved of the ways of managing and conserving r resource is Making larger drains Making smaller drains Allowing more paved areas Having more unpaved areas
25.	Publi renew (1) (2) (3) (4)		30.		al forestry is Forestry taken up to help poor people Planting trees on unused and fallow land Planting trees in urban public spaces Not taken up in India

- 31. Town Planning process
  - (1) Essentially is forming appropriate geometrical layouts in urban areas
  - (2) Is a detailed economic analysis of urban activities
  - (3) Is the physical outcome of an analysis of socio-economic dynamics
  - (4) Should be done only by engineers and architects
- 32. Archaeological surveys in the city of Mohenjo-Daro in Sind show that
  - (1) town planning in Indus Valley Civilization was highly advanced
  - (2) town planning was fairly primitive
  - (3) the town was based on a radial form
  - (4) it was not of any significance
- **33.** The four main objectives of any town planning scheme are
  - (1) Beauty, convenience, environment and health
  - (2) Speed, IT parks and recreation
  - (3) Completely different from place to place
  - (4) Landscapes and institutional buildings
- 34. Underground system of sewers was found in which historic city ?
  - (1) Kahun in Egypt
  - (2) Ancient Greek cities
  - (3) Mohenjo-Daro and Harappa
  - (4) Lukang in China

- Some of the streets in the Greek city Miletus were very steep because
  - (1) Roads in concentric pattern were superimposed on rugged slopes
  - (2) Grid iron pattern roads were superimposed on rugged slopes
  - (3) Roads in radial pattern were superimposed on rugged slopes
  - (4) Roads were laid according to the existing contours which had steep slopes.
- 36. The agora is
  - (1) The traditional historic city with homes of artisans
  - (2) Housing area to accommodate workmen
  - (3) The central open space in Jaipur
  - (4) The public space in Greek cities
- 37. Medieval cities in Europe were characterized by
  - (1) Grid iron street pattern and no boundary wall
  - (2) Irregular street patterns and heavy walls
  - (3) Grid iron street pattern and heavily fortified walls
  - (4) Radial street pattern opening up to country around

B

35.

#### (7)

- 38. An example of diagonal and radial streets 41. superimposed on grid iron layout is
  - (1) Philadelphia
  - (2) Savannah
  - (3) Washington DC
  - (4) New York City
- 39. The impact of the Industrial Revolution on the condition of the worker housing was
  - (1) The quality of housing improved enormously
  - (2) The workers were able to live in large villas
  - (3) The conditions of housing became very congested and badly ventilated
  - (4) The workers lived in better conditions due to technological developments
  - 40. Which of these is an example of "company town" which came up after Industrial Revolution?
    - (1) Bournville
    - (2) Radburn
    - (3) Milton Keynes
    - (4) Garden City

В

- The name of the planners/administration that made major changes in Paris in the 19<sup>th</sup> century is
  (1) Ebenezer Howard
  (2) Haussmann
  (3) F.L. Olmstead
- (4) John Ruskin

. The Garden City concept was propounded by

- (1) Patrick Geddes
- (2) Ebenezer Howard
- (3) Louis I. Kahn
- (4) George Metzendorf

43. An example of a city with grid-iron layout is

- (1) Hyderabad
- (2) Mumbai
- (3) Jaipur
- (4) New Delhi

44. The first Act to deal with town planning and housing was enacted in

- (1) India in 1990
- (2) USA in 1969
- (3) Australia in 1979
- (4) Great Britain in 1909

APT/	629	( 8	3)		B
45.		on development in urban areas can be	49.	The	term 'megalopolis' refers to
	seen (1)	seen near (1) Major roads		(1)	A huge city with number of smaller urban centres included
	(2)	Parks and playgrounds		(2)	A huge city with many satellites
	(3)	Central areas of the city		(3)	A huge city with military presence
	(4)	Railway junctions		(4)	A city with economic breakdown
	2	2		(4)	A city with economic breakdown
46.		tellite town is			
	(1)	A self-sufficient rural settlement	50.	"Cou	ntry planning" refers to planning of
	(2)	A town with some dependence on a large nearby city		(1)	Agricultural regions
	(3)	Usually very linear in shape			
	(4)	Always circular		(2)	Areas and settlements surrounding a town
				(3)	Resorts and recreational areas
47.	Whic opini	ch of the following is correct in your on?		(4)	Development of administrative or political system
	(1)	Horizontal urban growth is ideal for very large cities			
	(2)	Density is usually very high in horizontally growing urban areas	51.	'Padi	maka' in the Manasara Shilpa Sastra is
	(3)	Vertical growth of buildings requires		(1)	Lotus shaped town
		less land		(2)	Flower shaped town
	(4)	Natural scenery can be enjoyed in low- rise high density developments		(3)	Bow shaped town
				(4)	Swastika shaped town
48.	The area:	term "secondary cities" is used for urban s			
	(1)	Which come up very close to metropolitan cities	52.		name of a famous education centre ed in North-West India is
	(2)	Where there are large number of recreational and educational facilities		(1)	Ayodhya
	(3)	Where the main economic base is		(2)	Dwaraka
		agriculture		(3)	Takshasila
	(4)	Where the main economic activity is marketing		(4)	Harappa

#### (9)

57.

- 53. The size of a neighbourhood is based on
  - (1) Acceptable walking distance from house to public facilities
  - (2) Acceptable travel time from house to work place
  - (3) The concept of high rise living
  - (4) Always 5000 people.
- 54. Open space should be provided
  - (1) In a big park or playground in the centre of the city
  - (2) As a hierarchy of spaces at different levels
  - (3) Only close to schools and colleges
  - (4) Usually close to dense commercial areas to give relief
     59.
- **55.** Usually in a city, approximately how much percentage of the area comes under residential land use ?
  - (1) 40 45%
  - (2) 33%
  - (3) 75%
  - (4) 50 60%
- 56. Zoning means
  - (1) Reserving of land for a specific purpose or use
  - (2) Control of use of land/buildings
  - (3) Structural regulations restricting type of building materials
  - (4) Encouraging certain types of development in the city

Which of the following is *not* included in nonprofit making use of land ?

- (1) Office
- (2) Parks
- (3) Roads
- (4) Playgrounds

**58.** Which of the following is a satisfactory boundary for a zone ?

- (1) Street
- (2) Railway line
- (3) Ribbon development
- (4) Neighbourhood boundary

While preparing zoning map for an existing town?

- (1) The opportunity to change the existing zoning must be taken
- (2) Major areas can be demolished and reconstructed
- (3) The existing dominant use has to be considered
- (4) Existing low-rise areas can be upgraded to high rise zones

60. Which of these is most accurate?

- (1) Flexibility in zoning plan should be given by special permissions to all applicants for change of zone
- (2) Industries should be very close to housing to reduce travel time
- (3) Some small commercial areas should be included in residential areas
- (4) Mixed land use should always be discouraged

APT/	629	(1	D)	B
61.		legislation to control air pollution in India titled	66.	The capacity of a road in urban area to carry traffic depends partially on
	(1)	The Air (Prevention & Control of		(1) The sight lines
		Pollution) Act 1981		(2) Design of intersections
	(2)	The Air (Purification & Control of		(3) Radius of curves
		Pollution) Act 1981		(4) Gradients
	(3)	The Air Act 1961		
62.	(4) Whi	ana internet interne	67.	In the analysis of a traffic junction, the potential points at which traffic may interact are called
	100 C 100 C 100	itant?		(1) Contour points
	(1)	Noise	2	(2) Conflict points
	(2)	Sewage		(3) Control points
	(3)	Carbon monoxide		(4) Clover leaf point
	(4)	Industry fumes		
63.	Indi	agency constituted by the Government of a to monitor implementation of the ional Water Policy is Central Water Board National Water Conservation Board National Water Board	68.	<ul> <li>Which of the following is preferred for intersection at one level with high volume of traffic flow ?</li> <li>(1) Roundabout</li> <li>(2) Traffic signal</li> <li>(3) Control by traffic policemen</li> <li>(4) Clover leaf interchange</li> </ul>
	(4)	National Water & Air Board		2
64.	Exc (1) (2) (3) (4)	essive cutting down of forests causes Soil erosion Air pollution to decrease Decrease in temperature Rapid growth of new forests	69.	<ul> <li>Roads which connect the main traffic generating centres in different parts of the city are called</li> <li>(1) Arterial roads</li> <li>(2) Sub arterial roads</li> <li>(3) Highways</li> <li>(4) Loop roads</li> </ul>
65.		e of the health consequences due to longed exposure to noise is Improved hearing ability Effect on kidneys Effect on thyroid Hypertension	70.	<ul> <li>The type of parking requirement for a shopping area is mostly</li> <li>(1) Long-term and small scale</li> <li>(2) Large scale and long period</li> <li>(3) Short-term and large scale</li> <li>(4) Short-term and small scale</li> </ul>

APT/6	20	(11	)		В
71.	For	requirements of parking of longer ion, what type of parking should be	76.	Whicl flow o	n is the best method for improving traffic on a major arterial road ?
5 (	provi			(1)	Imposing fines and penalties
	(1)	On-street parking		(2)	Regulation by traffic policemen
	(2)	Valet parking		(3)	Segregating fast and slow traffic
	(3)	Off-street parking		(4)	Installing signs
	(4)	Above ground parking			
			77.	Whic	h is the smallest road of these ?
72.	Traff	fic and warning signs are usually done		(1)	Feeder road
	with			(2)	Arterial road
	(1)	Luminous paint		(3)	Cul de Sac
	(2)	Black paint only		(4)	Highway
	(3)	White paint on black background		(4)	Inghway
	(4)	Green paint on black background			
			78.	At jı	unctions, the camber should be
73.	Ped	estrian crossings on road are usually		(1)	Same as for the rest of the road
		indicated by painting on the road and these are called		(2)	Avoided
		Safety crossing		(3)	Lesser than the remaining road
	(1) (2)	Giraffe crossing		(4)	More than the remaining road area
	(2)	Zebra crossing		(1)	
	(4)	Lane marking			the second
	(4)		79.	At i	ntersections, each vehicle driver should
74.		improve the traffic condition on roads it is	5	(1)	Not see the vehicle coming from other directions to avoid glare
		advisable to		(2)	Clearly see the vehicles coming from
	(1)	Increase the number of cars			other directions
	(2)	transport		(3)	Be able to see the vehicles coming from opposite side only
	(3)			(4)	Be able to see vehicles coming from
	(4)	Keep the work places very far from th main city	~	x-7	right side only
1		manicity			
75		hich of the following is a restrictive measur	e 80	. Ar	example of grade separation is
	for	traffic control ?		(1)	Roundabout
	(1			(2)	) Traffic island
	(2			(3	) Diamond crossing
	(3			(4	
	(4	) Flyover		(4	) One-way toda

APT/	629	(1)	2)		B 2
81.	One of the disadvantages of roundabout is		86.	Stati	stics show that most accidents occur on 3
	(1)	Cannot cater to more than four roads at		(1)	curving roads
	(0)	a junction		(2)	straight roads
	(2) (3)	Too much loss in traffic capacity High speeds at junction		(3)	flyover junction
	(3)	Does not provide easily for pedestrian crossing		(4)	underground pass
			87.	The o	disadvantage of traffic signal is
82.	The that	advantage of on street kerb parking is		(1)	Decrease in traffic handling capacity at road junction
	(1) (2)	It improves the aesthetics of the road It is very convenient	i.	(2)	Does not allow pedestrians to cross safely
	(3)	It improves safety of road users		(3)	Not economical
	(4)	It increases the carrying capacity of the road		(4)	Often requires presence of traffic police
83.		ch of the following requires least width of street ?	88.	00100000000	lient of main roads in urban areas should mited to
	(1)	Parallel parking		(1)	1 in 20
	(2)	45° angle parking		(2)	1 in 10
	(3)	Right angle parking		(3)	1 in 8
	(4)	30° angle parking	1	(4)	1 in 200
84.		width of traffic lane is determined by	89.	In Ir	ndia, the best location for road signs is
	(1)	Width of smallest vehicle + clearance		(1)	Left side of road
	(2)	Width of road/number of lanes Width of road + 3 clearances		(2)	Right side of road
	(3) (4)	Width of largest vehicle + clearance		(3)	On the central median
	(4)	That of argost tender + tourante		(4)	Overhead
85.		average capacity of a traffic lane varies veen	90.	A va	riation of Cul-de-Sac is
	(1)	700 – 2000 vehicles/hour	5	(1)	Ring road
	(2)	500 – 800 vehicles/hour		(2)	Grid-iron road
	(3)	800 – 3000 vehicles/hour		(3)	Loop street
	(4)	200 – 800 vehicles/hour		(4)	Radial road

APT/629	(40)
<ul> <li>91. Once a plan is prepared for an urban area</li> <li>(1) It is never changed for any reason</li> <li>(2) It is often modified based applications</li> </ul>	<ul> <li>(13)</li> <li>B</li> <li>96. How should the town planning officials respond to media reports which oppose the plan proposals ?</li> </ul>
<ul> <li>(3) It is changed once every month <ul> <li>(4) It is modified systematically every months</li> </ul> </li> <li>92. The government lawyers <ul> <li>(1) Should be consulted during tow planning process</li> <li>(2) Have no possible contribution to th town planning process</li> <li>(3) Should ideally review all urbal legislation and bye-laws</li> <li>(4) Should not involve themselves in town planning department</li> </ul> </li> <li>93. Plan making process should <i>not</i> include <ul> <li>(1) Environmental issues</li> <li>(2) Social problems</li> <li>(3) Economic status</li> <li>(4) Pressure or power groups</li> </ul> </li> <li>94. The citizens' role in planning process should be</li> </ul>	<ul> <li>(2) They should ignore the media reports <ul> <li>(3) They should keep an open mind to suggestions from everyone</li> <li>(4) They should sue them in court</li> </ul> </li> <li>97. The planner in a government should <ul> <li>(1) Behave as the representative of the local politician</li> <li>(2) Should plan with a comprehensive approach for the country</li> <li>(3) Interpret the desires of the various lobby groups</li> <li>(4) Represent the interests of the large MNC &amp; IT companies</li> </ul> </li> <li>98. The team for a planning preject with</li> </ul>
<ul> <li>(2) They should support all proposals</li> <li>(3) They should participate in a democratic manner</li> <li>(4) They should not involve themselves</li> <li>95. How should planners respond to citizen involvement?</li> <li>(1) They should make all modification</li> </ul>	

APT	/629	(1	14)		B	
100.	HUI	DCO is primarily	106.	Soci	al survey includes	
	(1)	A low cost housing construction agency		(1)	Roads and their alignment	
	(2)	A funding agency for urban development		(2)	Waterways and canals	
	1003313	projects		(3)	Mines and their location	
	(3)	A private planning consultancy		(4)	Birth and death rates

104.	Mast	er plan preparation is done by		(3)	Should sometimes be informed to the	
	(1)	Development Authorities		10	respondents	
	(2)	Director of Town & Country Planning		(4)	Should be decided after conducting the survey and seeing the material collected	
	(3)	Municipal Corporation			in the planning process.	
	(4)	Panchayati Raj	0.02	22		
105.	The with	72 <sup>nd</sup> Constitution Amendment Bill deals	110.	to	eys are important in the planning process	
	(1)	Panchayati Raj		(1) (9)	Estimate cost of plan implementation	
	(2)	Water Act		(2)	Understand existing conditions and future trends	
	(3)	Land Acquisition Act		(3)	Identify slums for demolition	
	(4)	SEZ		(4)	Estimate levelling costs	
		1			P ANA	

APT	/629	(	15)		B
111.	The	first step of the survey operations is	116	. Wh	ich statement is correct ?
	(1)	Recording the interviews		(1)	No surveys are required for new towns
	(2)	Data analysis		(2)	Surveys are needed for any proposals in
	(3)	Framing a questionnaire		(9)	existing towns
	(4)	Data coding		(3)	Only physical surveys are required in satellite towns
				(4)	Surveys are not really necessary for
112.	A su calle	urvey in which all units are <i>not</i> recorded is ed a			plan making, as the statistics are never meaningfully used.
	(1)	Sample survey	117.	Ran	dom sample surveys are
	(2)	Demographic survey		(1)	Never accurate but have to be used
	(3)	Physical survey		1000	because of time and cost limitation
	(4)	Visual survey	i.	(2)	Quite accurate if sample is selected without bias
112	The	Population Communication 1		(3)	Quite accurate if sample is selected with bias
10.	(1)	Population Census in India is conducted		(4)	Never used in town plan preparation
		Every year			since always full surveys are required
	(2)	Once every five years	a Techesologi	N.850 - 1	
	(3)	Once every ten years	118.		best depth of information is collected by
	(4)	Every alternate year		(1)	Personal interview
				(2) (3)	Postal survey
14.	The Census of India reports are <i>not</i> a source for information about			(4)	Telephonic survey Group surveys
	(1)	Age-sex structure of population	119	One	of the disadvantages of postal
10	(2)	Income groups of households			of the disadvantages of postal tionnaire is
	(3)	Material status of the building		(1)	Inflexibility of the questionnaire
	(4)	Occupation		(2)	Too much time required
				(3)	Too much staff required
		project population size in future, the her needs to know		(4)	No disadvantage compared to personal interview
	(1)	Birth and death rates	120.	For a	land use survey
	(2)	Number of graduates passing every year		(1)	25% sample survey is sufficient
	(3)	Number of postgraduates passing every		(2)	50% sample survey is required
		year		(3)	75% sample survey is required
1	(4)	Occupation structure		(4)	100% survey has to be done

- (1) Distribution of population
- (2) Economic use of public utility services
- (3) Health of the community
- (4) Water shortage
- **122.** Which of the following is *not* a type of zoning in an urban area ?
  - (1) Use zoning
  - (2) Height zoning
  - (3) Seismic zoning
  - (4) Density zoning
- **123.** Which of these *cannot* be used as a tool to restrict density?
  - (1) Specify the number of people per acre
  - (2) Limit the height of the building
  - (3) Limit the size of rooms
  - (4) Limit the number of toilets
- **124.** One of the main objects of height zoning is
  - (1) To provide enough built-up area
  - (2) To ensure reasonable traffic movements
  - (3) To provide enough parking space
  - (4) To ensure community interaction
- **125.** The residential zone should be located
  - (1) Adjacent to the industrial zone
  - (2) Downstream from the industrial zone
  - (3) Upstream from the industrial zone
  - (4) In a different settlement from the industrial estate
- 126. Which industries or uses should be located close to residential areas?
  - (1) Laundries and bakeries
  - (2) Chemical factories
  - (3) Effluent treatment plants
  - (4) Land fill area

- of the 127. The local authorities are given power to acquire land so that
  - (1) They can allot land for commercial ventures
  - (2) They can provide for common facilities
  - (3) They can provide enough cinema theatres
  - (4) They can remove unsightly slum development
  - 128. To prepare a zoning map, the town planner needs a map showing
    - (1) The building material used for all housing
    - (2) The names of all housing estates
    - (3) All housing areas indicated in one colour
    - (4) Different types of housing areas such as independent flats, etc.
  - 129. 'Social' housing refers to
    - (1) Areas where there is a lot of community interaction
    - (2) Areas limited to a certain caste or community
    - (3) Housing for people belonging to highsociety
    - (4) Subsidized housing for low income households
  - 130. The light plane is marked at an angle of
    - (1) 35°
    - $(2) 50^{\circ}$
    - (3) 63·5°
    - (4) 75°
  - 131. The following areas are usually added for calculation of FSI
    - (1) Toilets
    - (2) Parking space without enclosure
    - (3) Electric cabin or substation
    - (4) Ducts
